About me

Over 3 years of experience solving problems, learning new skills, and completing projects both collaboratively, through effective communication, and independently. I enjoy staying up-to-date with new technologies, and improving my skills by applying them in personal projects.

Skills

- **Spoken Languages:** Romanian, English
- **Frontend:** HTML, CSS, SCSS, JavaScript, TypeScript, AJAX, jQuery
- **Backend:** PHP, Node.js, Express, Next.js
- **Frameworks & Libraries:** React, Sass, Bootstrap, Tailwind CSS, Three.js, Framer Motion, Chakra UI, shadcn/ui
- **Databases:** MySQL, MariaDB, PostgreSQL, MongoDB
- **Build Tools & CI/CD:** Vite, Turbopack, Docker
- **Deployment / Platforms:** GitHub, GitLab, Vercel, Netlify, Supabase, Appwrite, Sentry, Clerk, Stripe
- **Tools & Utilities:** Git, Bash, Prettier, ESLint

Experience

Front End Developer - Keepcalling
Mar 2023 - Present

- Modernized jQuery code to vanilla JavaScript, improving maintainability and aligning with modern frontend standards.
- Developed and updated key web sections (homepage, checkout, user account) with dynamic behavior based on user-specific products.
- Implemented responsive, mobile-first UI, compatible across web and mobile apps.

- Handled bug fixes, redesigns, and optimizations for forms, emails, promotional sections, and complex components.
- Optimized backend processes by improving queries, updating API responses, and creating reusable classes.
- Collaborated with product and development teams to achieve a 3x increase in active users, contributing to product growth and performance improvements.
